

REMARKS

The Office Action dated February 2, 2009 treated original as-filed Claims 1-20 of the PCT application (PCT/EP2004/001069), and required restriction between Group I (Claims 1-6) and Group II (Claims 7-13). Claims 14-17 were indicated to be "common" claims that would be examined along with the claims of the selected group. Additionally, Claims 18-20 were not treated because they were deemed to be in improper multiple-dependent form.

Applicant notes that during the international processing of the above-noted PCT application, amended claims were filed. See the enclosed copy of the International Preliminary Report on Patentability (IPRP). In particular, original Claims 7-13 were canceled, and original Claims 14-20 were renumbered as Claims 7-13 (and slightly amended). Thus, the claims that should have been treated in the present Office Action are Claims 1-13 attached to the IPRP. As a result, the present restriction requirement is moot, since only claims of Group I are presented.

Applicant has also amended Claim 9 to correct a typographical error, and has amended Claims 11-13 to make them regular dependent claims.

Thus, Claims 1-13 are now presented for examination on the merits. It is noted that the IPRP indicated these claims to be patentable over the art in the Search Report.

If the Examiner has any questions or wishes to discuss any issue raised by the present response, please contact the undersigned at the telephone number below the registration number.
